About CIC Services

Turning Risk Into a Profit Center

CIC Services, LLC is a national risk management consulting firm, specializing in the utilization of captive insurance companies (CICs) to help organizations achieve their overall enterprise risk management goals. We have been helping business owners manage risk through CIC ownership since 2005 by providing superior expertise, and full-service, turn-key captive management services. Our principals have more than a century of combined experience in the insurance industry.

We understand the unique needs, goals, and fears of business owners. We have built our business by serving these entrepreneurs through the innovative use of captive insurance companies tailored to meet their individual needs and to help them achieve their goals and dreams.

Captive Insurance Is More Critical Than Ever

Captive ownership is on the rise. According to the 2021 Captive Benchmarking Survey from Aon, there has been sizeable growth in captives.

When developing a robust risk management strategy, there are several reasons why business-minded audiences should know more about captive insurance.

- ✓ Labor shortages and supply chain instability predicted
- ✓ More natural disasters in coming years
- ✓ Accelerated technology and innovation
- ✓ Cyber crime on the rise
- ✓ New variants of COVID-19 emerging
- ✓ Increase in insurance premiums

Captive Insurance Provides an Opportunity

Captive insurance enables businesses to take more control over their risk management by owning their own insurance company. It is a cost-effective form of self insurance. Captives are real insurance companies and businesses can utilize them to replace some or all of their commercial insurance, insure enterprise risks, provide warranties and issue bonds.

What are the benefits of a captive insurance company?

- ✓ Improve risk management
- ✓ Reduce net insurance premiums
- ✓ Reap gains in insurance profits
- ✓ Smooth rate increases
- ✓ Accumulate wealth
- ✓ Enjoy potential advantageous tax treatment
- ✓ Gain access to reinsurance markets
- ✓ Insure non-standard risks
- ✓ Employ customized insurance programs

The CIC Services' Supreme Court Victory Against the IRS

The Supreme Court of the United States granted CIC Services LLC a significant victory for taxpayers and their advisors.

“For too long the IRS has behaved as if it was exempt from the basic rules of law making that govern federal administrative agencies, as if the AIA gave it carte blanche to make and enforce laws by fiat without following due process,” said Sean King, General Counsel for CIC Services. “Our 9-0 victory proved them wrong.”
